Group Exercise classes are fun, motivating & help you get results much faster than working out alone. If you would like to find out more about how our classes fit into your fitness program, have a chat to one of our instructors or Health Club staff.

Please arrive to 10-15 minutes early to ensure your place in class and enjoy the full experience from warm-up, through the workout to cool-down!

BODYPUMP – with *Rakapa, Rawinia & Rowie*: The original barbell class that strengthens and tones your entire body. This sixty-minute workout challenges all your major muscle groups, will burn calories, increase core strength, improve bone health and tone your entire body fast.

BOX HIIT – with *Cory*: High Intensity Interval Training with a twist – a hit of boxing. Usually coached as a circuit style class incorporating primal movements, high intensity exercises and boxing with a partner for an incredibly fun, challenging workout.

GYM SESSION – with *one of our Personal Trainers*: The Gym Session isn't a workout, but an informative session with PT on how to get started with the cardio and pin-loaded equipment in the gym and provides an opportunity to ask questions about training. Please note these sessions are limited to 10 people per session on a first in, first serve basis.

HIIT – with *Cory, Jono & Laura*: High Intensity Interval Training has been designed to achieve results fast. An efficient calorie burning class where each exercise is different, keeping your workouts interesting and maximising your results.

KONGA – with *Amanda*: A combination of Dance, Kickboxing, Strength and Plyometric movements set to music. Konga is an easy-to-follow, low complexity and high intensity dance-based class, suitable for all ages & fitness levels and it's a lot of fun!

PILATES – with *Abby*: A mat-based Pilates workout which is a low-impact muscular strength & endurance class with a focus on flexibility, mobility, core strength and muscular balance.

SPIN & RPM – with *Cory, Jono, Kate & Rowie*: Participants follow a leader on a stationary bike as the instructor takes you through a journey set to uplifting music great for cardio training and lower body muscular fitness.

YOGA – with *Amani, Fiona & Rico*: Each class will both strengthen and rejuvenate you through the selection and order of body postures. Challenge your strength, balance, flexibility and the mind whilst you work through long, strong holds and fast transitions with the opportunity to progress towards challenging Yoga poses. At the end of each class, time is set aside for relaxation; a state in which the body comes into stillness and the mind is quiet, alleviating stress and anxiety.

ZUMBA & ZUMBA GOLD – with *Jessika & Kiyō*: A modified version of the original Zumba class, Zumba Gold is tailored to beginners, seniors and those that want to keep active and have fun at the same time! Step it back in time a little bit with some old school classic tunes!
